General Information

During the third instalment of The Bedlam Ball, you are all given the opportunity to embrace the spirit of freedom. You can explore the beautiful surroundings, delve in to the rich tapestry of music on offer, engulf yourself in our 'a forest of colour' theme, and most importantly of all leave your ego and real world worries at the gate to have fun and enjoy the company of like minded humans on our journey through the cosmos.

Within these pages you're going to find all you need to know to ensure your weekend run smoothly. And you'll learn everything you need to know to ensure we all respect the land, leave no trace, and come back next year bigger and better than ever before.

A Forest of Colour

This years theme is 'A Forest of Colour'. We welcome you all to interpret that however you want. You can be adventurous and become a psychedelic Forest fairy, or just throw on your best festival finery. But on Saturday we want to fill the farm with a landslide of colour.

Don't Be A Wasteman!

One of our biggest goals this year is to ensure we all do our bit to take home as much waste as you can. Everything that's left at the end has to be paid for to be removed and dispose of correctly. Our main priority is if people can take home all of their recycling at least, it's going to make our lives a whole lot easier. If you can also take home more then you'll be the belles of The Bedlam Ball.
